

POLYURETHANE

- Roadrunner's line of polyurethane tires and load wheels are designed to give the life and stability needed in today's modern applications.
- From freezer use to polyurethane tires with several traction design options, at Roadrunner Rubber we are known as the poly experts!

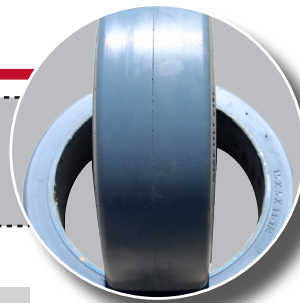

ROADRUNNER POLY

BENEFITS

- All of our polyurethane tires are made in the USA to exact specifications and are used by material handling manufacturers on an OEM level.

KYRON MATERIAL

Ask about our kryon infused polyurethane tires which will give you the durometer and weight handling capability of traditional polyurethane tires with a higher resistance to cutting and chipping.
